Property Overview

1120 Sycamore Ave is located within the prestigious Vista Business Park which lies in the center of the North San Diego County Industrial hub. Vista is approximately
10 miles inland, 30 miles North of San Diego, and strategically located with close proximity to Carlsbad, Oceanside, San Marcos & Escondido. The Vista Industrial market consists of nearly 14,000,000 square feet of industrial & flex space, accounting for approximately 25% of the total North County industrial market. With a vacancy rate dropping below 4%, Vista continues to thrive as San Diego Counties' tightest submarket. Major companies like Watkins Manufacturing, McCain Traffic, Killion Industries, Datron, Polaris Pools & over a dozen local breweries are headquartered in the Vista submarket. Vista's central North county location and lack of developable land will continue to strengthen the demand for industrial space in the area.

Property Overview

Solara Medical Center is being reimagined as North County San Diego's most elevated Class A medical office destination. Located just 250 yards from the future Sharp HealthCare-operated Tri-City Medical Center, this premier campus offers healthcare providers a rare opportunity to own their space in a thriving medical corridor.

The property is undergoing extensive renovations, including a revitalized exterior façade, upgraded building systems, and luxury finishes throughout the lobby and common areas. Designed with patient experience in mind, the center will feature modern electronic directories, enhanced landscaping, and ample parking at a ratio of five spaces per 1,000 square foot.

Strategically positioned off Highway 78, Solara Medical Center benefits from exceptional visibility and access, with an average daily traffic count of 129,000 vehicles. The surrounding area is a hub for healthcare, with proximity to leading institutions such as incoming Sharp Healthcare, UC San Diego Health Vista, Scripps Coastal San Marcos, Kaiser Permanente, and Palomar Medical Center, all within a 15-mile radius. The center's location is further strengthened by strong demographics, including a projected 2025 population of over 860,000 within a 15-mile radius and an average household income exceeding $150,000.

This ensures long-term stability and growth for medical practices seeking to establish or expand in a vibrant healthcare ecosystem.
